A PARIS SENSATION.

French Woman Shoots to Draw Atten-
 tion of Minister.

Paris, July 16.—M. Baudin, minister of
 public works, was shot at while driving
 to a cabinet meeting at the Elysee Pal-
 ace, this morning.

The author of this attempt upon the
 life of M. Baudin was a woman, who
 was accompanied by a 10-year-old child.
 She approached M. Baudin's carriage
 and suddenly drawing a revolver fired at
 the minister. M. Baudin was not hit and
 proceeded to the Elysee Palace.

The woman was arrested and gave her
 name as Olewszky, and said she lived at
 Nanterre. Her husband is a Pole and
 was an architect at Nice until 1894.

Madame Olewszky asserts that she had
 no intention of hitting M. Baudin, but
 that she fired her revolver in the
 air to draw attention to an alleged grievance
 of her husband. Her husband is
 described as Count Olewszky, a natural-
 ized Frenchman, holding a government
 receivership in the neighborhood of
 Paris. He believes he is being deprived
 of money due him by the minister.

Mme. Olewszky was much disappoint-
 ed when told that she had fired her pis-
 tol at M. Baudin, and exclaimed, "What
 I thought he was M. Delcasse."
 The French minister of foreign affairs
 I deeply regret I made this mistake, and
 I will tender full apologies to M. Baudin."

When asked if her act was premeditated,
 Mme. Olewszky replied: "Yes, I
 practised shooting in a gallery all last
 Sunday at Nanterre, where I reside."
 She said further that she had been ar-
 rested at Nice in January, 1900, for
 libelling and threatening M. Delcasse,
 but that she was subsequently released.
 She refused to explain why she wished
 to shoot M. Delcasse.

The husband of Mme. Olewszky
 was interviewed at his home in Nan-
 terre, he explained his wife's act, say-
 ing his family was in straitened cir-
 cumstances and lived on 800 francs a
 year, and that his wife committed the
 act in order to draw attention to her
 misery.

The revolver she used is of small cali-
 ber and contained only one cartridge.
 The grudge of the Olewszkys does not
 appear to be against M. Delcasse, but
 against M. Baudin, but fired her revolver in
 the air, would now seem to be estab-
 lished.

The claims of the Olewszkys against
 the department of foreign affairs are
 that M. Baudin did not try to
 hit M. Baudin, but fired her revolver in
 the air, would now seem to be estab-
 lished.

He was released a month later and
 asked the French government to demand
 of Italy the payment of 100,000 francs
 compensation, asserting his arrest had
 ruined his business. He received from
 the foreign office sums amounting to
 3,800 francs, and his position as tax col-
 lector, or his position as a tax collector,
 was worth 2,800 francs a year. He and
 his wife were dissatisfied and frequent-
 ly persecuted M. Delcasse. These per-
 secutions culminated in today's incident.

BOERS IN CAMP.
 Lord Raglan Tells Numbers British Are
 Looking After.

London, July 16.—In the House of
 Lords yesterday Lord Raglan, under se-
 cretary of state for war, in the course of
 an announcement that Mr. Brodrick
 was selecting a committee of women to visit
 the concentration camps in South Africa,
 said that the whites in those camps num-
 bered 14,624 men, 27,411 women and 43,
 075 children. He said also that the mor-
 tality for the month of June was 63
 men, 128 women and 576 children. Lord
 Raglan deplored the heavy mortality in
 the camps in the early months
 of their establishment.

The government was defeated in the
 House of Lords this afternoon. Although
 quite unimportant in itself, the defeat
 was indicative of the growing discon-
 tent. The incident arose from the ques-
 tion whether the mode of the new war
 offices should be made and exhibited.

Lord Lansdowne, the foreign secretary,
 refused to entertain this proposition, but
 on a division the motion was carried by
 41 yeas against 20. The announcement
 of the vote was greeted with pro-
 longed cheers.

NIEUCHWANG.
 Russia Preparing an Official Announce-
 ment of Ownership.

London, July 16.—"The Russian civil
 administrator here," says a despatch to
 the Morning Post from Nieuchwang,
 dated July 12, "has prepared a proclama-
 tion declaring that the port of Nieuchwang
 has been taken over by Russia. This
 will be issued on receipt of the official
 document from Peking. The proclama-
 tion will declare that all houses shall
 be liable to a tax of 60 cents per month,
 and a Chinese poll tax of \$1.50 a month.
 It will direct that various professions
 must be denoted by various clothing."

FOR BOTH ENDS.
 Rumor that Mr. Peters Should Enter
 Cabinet for P. E. I. and B. C.

Charlottetown, P. E. I., July 16.—It is
 stated here that should the government
 decline to give this province a portfolio
 upon the retirement of Sir Louis Davies,
 ex-Premier of the province, Mr. Peters,
 now of Victoria, will be invited to run
 in West Queen's with the understanding
 that the provinces of British Columbia and
 Prince Edward Island shall together enjoy
 the benefits accruing from the portfolio.

A MANIFEST

FROM ROSEBERY

Former Liberal Leader Disclaims
 any Desire to Re-Enter Po-
 litical Arena.

London, July 17.—Lord Rosebery has
 issued a manifesto on the divisions in
 the Liberal party. It is contained in a
 letter to the city Liberal club at which
 he had been invited to deliver an ad-
 dress. He disclaims any desire to re-
 enter politics, but speaks out "under the
 remarkable charter" agreed upon by Lib-
 eral members of the House of Commons
 of "hearty and undisputed allegiance to
 the leader and complete liberty of action
 to dissent in regard to the one vital ques-
 tion before the country."

"The Liberal party can become a power,"
 he continues, "only when it shall have
 made up its mind on the Imperial
 question, and at this moment com-
 bodied in the war."

Lord Rosebery concludes with a gloomy
 touch. "It is a matter of sorrow and
 anxiety," he says, "to see a weak gov-
 ernment faced by a weaker opposition at
 a juncture of such vital importance and
 international competition which needs all
 the vigilance, power and ability at our com-
 mand."

He believes that Great Britain is at a
 crisis which may have ultimate effects
 upon its future.

UNWITTING BENEDICT.
 Did Not Mean Any Disrespect to the
 British Flag.

Toronto, July 16.—(Special)—Pro-
 vincial High School Inspector John
 Seaton, who has been making inquiries for
 the government regarding the removal of
 British flags from the Archaeological mu-
 seum at the Pan-American exposition,
 has reported to Hon. Mr. Harcourt that
 the incident did not arise from any desire
 to give insult or offence and was devoid
 of features likely to cause international
 friction.

Dr. Benedict, director of the Ethnological
 building and to a great extent the
 changes in displays under his charge,
 explained to Mr. Seaton that in re-arrang-
 ing the exhibit he did so without the
 slightest thought of causing any annoy-
 ance or irritation, and that far from
 being an Anglophobe, he is a great ad-
 mirer of British institutions. He adds
 that he will be glad to make any sug-
 gested rearrangement of the exhibit. Mr.
 Harcourt also received a letter from
 Dr. Benedict conveying the same views
 and expressing regret for being unwittingly
 the cause of the trouble.

SUMMER FREAKS.
 Ottawa Hotel Proprietor Bars Shirt
 Waist Man.

Montreal, July 16.—(Special)—The act
 of Mr. St. Jacques, the proprietor of the
 Russell Hotel, Ottawa, in declining to
 admit shirt waist men to the dining room
 of the hotel was a fruitful source of
 conversation among the hotel people in
 the city today. It was added to the
 discussion by the fact that a guest at
 the Queen's hotel, wearing a dainty shirt
 waist, walked into the dining room this
 morning and made a hearty breakfast in
 spite of the attention attracted. Whether
 he received a gentle hint from some mem-
 ber of the staff, or whether he feared to
 again brave the questioning curiosity of
 many pairs of eyes, is not known, but
 at dinner and supper he appeared in or-
 dinary attire and disappointed a number
 of guests who were on the look out for
 him.

CRANE BROKE.
 One Man Was Killed and One Badly
 Hurt.

Toronto, July 16.—(Special)—An ac-
 cident occurred at Metford this after-
 noon in which one man was killed and
 another seriously injured. They were
 working on a steam shovel at the exten-
 sion of the G. T. R. to the harbor, when
 the crane got on the men. Joseph
 Joseph, aged 30, who was killed,
 leaves one daughter living at Ottawa.
 The injured man, Albert Hawkins, is a
 native of this town. He may recover.

POLITICAL.
 Nomination at East Lambton—Gibson
 Again at York.

Watford, Ont., July 16.—(Special)—
 East Lambton Conservatives today nomi-
 nated P. D. McCallum to contest the
 riding of the legislature. Mr. McCallum
 was formerly member for the riding.
 Frederickton, N. B., July 16.—(Special)—
 Alexander Gibson was re-nominated by
 the Liberals for York county, N. B., this
 afternoon.

LIGHT SENTENCE.
 George Prudent Gets Off Easily for His
 Crime.

Vancouver, July 16.—(Special)—George
 Prudent charged with criminal assault
 on his 14-year-old daughter, came up
 for speedy trial today before Judge
 Bole. The crown allowed the prisoner
 to plead to the charge of seduction. This
 was done, and Prudent was sentenced to
 two years in the penitentiary.

LIGHTNING'S WORK.
 Kills a Farmer in a Port Robertson Hay
 Field.

Port Robertson, Ont., July 16.—(Spe-
 cial)—During a severe electrical storm
 which raged over the township of
 Crowland township, was instantly
 killed by lightning, while sitting on a
 hay rack in a field not far from his
 house. A wife and two young children
 survive him.

OMEMEE WARM.
 Thermometer Keeps Close to the Hun-
 dred Mark.

Toronto, July 16.—(Special)—Hot
 weather prevails again over a large area
 in Ontario. In Toronto the highest tem-
 perature today was 81, as against 92
 yesterday. Other places appear to fare
 much worse. In Omemee yesterday it
 registered 102 and today 98.

EPWORTH CONVENTION.
 Nearly Ten Thousand Delegates Regis-
 tered at San Francisco.

San Francisco, July 16.—Nearly ten
 thousand delegates to the international
 Epworth League convention which con-
 vened next Thursday were registered by
 the local committees today.

Go where you will, the best saloons sell
 Jesse Moore whiskey.

BUSINESS POINTERS.
 The Sterling, 39 Government street,
 are determined to clear out the balance
 of their magnificent and well assorted
 stock of general dry goods, and have de-
 cided to retail the whole of their valu-
 able stock at wholesale prices. Don't
 forget the address. The sale continues
 till everything is swept out, and every
 purchase is a bargain. See advertisement
 in another column.

Boy campers should furnish themselves
 with camp clothing when they go out
 camping; something of the free and easy
 style, to be had in great variety at Cam-
 eron's cheap cash store, Johnson street.

Racing Around The World

Representatives of Chicago and
 Paris Newspapers Arrive
 By Empress.

How Chicago Men Were Rushed
 to Seattle by Special
 Steamer.

Among the passengers of the R. M.
 S. Empress of India, which arrived at
 noon yesterday from the Orient, were
 two parties of racers who are rushing
 around the globe. There was S. M. Wil-
 liams and C. C. Fitzmorris of the Chi-
 cago American, and Robt. Lehardy and
 H. Stiegler of Le Matin, a Parisian
 newspaper. The coming of the Chicago
 racers was productive of more excite-
 ment than that ordinarily occasioned by
 the arrival of the Empress at William
 Head. The steamer Sea Lion was se-
 cured from the Puget Sound Tugboat
 company for the local correspondent of
 the Hearst newspapers, and it left the
 Otter wharf with him shortly after the
 steamer Otter started out to act as tender.
 Passing the Otter and leaving a
 long wake the fleet tug steamed down to
 William Head where Dr. Watt and Pilot
 Babbington were picked up, and carried
 on down the Straits to meet the Empress,
 which was seen steaming up the Straits
 at the other side of Race Rocks. In an-
 swer to signals from the tug, the Em-
 press slowed up and a boat was put out
 from the side of the Sea Lion with the
 doctor, pilot and correspondent on board,
 and the trio were rowed in to the big
 steel wall of the Empress and clambered
 up the ladder which was lowered for
 them. As soon as an examination had
 been made to ascertain that all on board
 were in health, the American racers were
 reeased and with their effects they hur-
 ried down the ladder to the waiting boat,
 which was towed to the Sea Lion, which
 had to near by, and at 12.10 p. m. as
 the liner was tying up at William Head
 the tug swung around and dashed away
 with a full head of steam for Seattle,
 which port she reached after a very
 fast trip. She was due at Seattle to-
 call at Port Townsend quarantine sta-
 tion, and as Capt. Manter was ignorant
 of these orders when he left another tug
 came out from that port to intercept him.
 The racers took the Great Northern train
 which left at 7.50 p. m. They were due
 at Chicago tomorrow night, and it looks
 as though they will win the race around
 the globe, having gone from Chicago to
 Chicago via the Atlantic, Europe, Siberia
 and the Pacific in sixty days. Competing
 with them is a New York boy named
 Joseph, who is now on the Atlantic,
 and W. Crittenden of San Francisco, re-
 presenting the Examiner, who is going
 around the world by the ocean route.

The French journalists who came
 ashore here and remained until the
 night left for the Sound at 7.50 last
 night, will not make as fast a trip as
 the Chicago boys, not securing such close
 connections. Both are well known in the
 old world. M. Lehardy being the presi-
 dent of a French club of balloonists, and
 a very well known figure in the district.
 There is an act of parliament govern-
 ing such matters, and we are of the opin-
 ion it will have to be enforced before rac-
 ers can be induced to take the hint.

"DEM GOLDEN BELLS."
 From Golden Era.

A number of our citizens are complaining
 bitterly of the cow bell nuisance at night,
 or rather early morning. To be awakened
 at 2 or 3 o'clock in the morning by the
 clanging of a dozen cow-bells is a direct in-
 centive to profanity and puts wicked
 thoughts in the minds of disturbed
 sleepers. There is an act of parliament govern-
 ing such matters, and we are of the opin-
 ion it will have to be enforced before rac-
 ers can be induced to take the hint.

MARRIED.
 SONNICHSEN—POTTER—In this city, on
 July 15th, Mansfield Sonnichsen, formerly
 of Seattle, Wash., and Miss Inez Potter,
 formerly of Eagle Point, Oregon.

WIGHTMAN—LIVINGSTON—At Skyland,
 Cal., on Monday, June 24th, Wm. M.
 Wightman, of Skyland, Cal., to Mary
 Errol Livingston, eldest daughter of Cleo-
 mont Livingston, Cleveland, Corfield,
 Vancouver Island.

DIED.

DIVIDEND No. 6.

Take notice that a dividend at the rate
 of Eight Per Cent. per annum for the
 half-year ending June 29, 1901, has been
 declared on class "A" Permanent Stock,
 and that the said dividend and the
 amounts of the Class "B" Full Paid
 Stock coupons will be payable at the
 Head Office of the company, Vancouver,
 B. C. on and after July 15, 1901.

THOS T. LANGLOIS,
 Manager.

Vancouver, July 13, 1901.

I found the hotels, steamers, and trains
 crowded on the whole route.

Once or twice, I was not allowed to
 leave by the train, because no more
 tickets were sold, the train being full.

The hotels at Khabarovsk (Metropolis,
 Russian, in Stretinsk (M. Schein), in
 Khabarovsk (M. Khabarovsk), in Vladivostok
 (M. Pacificque, Moscow, and Si-
 beria), will probably be found by the
 majority of travelers to be lacking in
 comfort, the latter exception being the
 French Grand Hotel at Blagovestensk.

The food on the steamers is also very
 poor.

I found the hotels, steamers, and trains
 crowded on the whole route.

Once or twice, I was not allowed to
 leave by the train, because no more
 tickets were sold, the train being full.

**Tenders for
 Four Per Cent Debentures.**

Sealed Tenders, endorsed, "Tenders for
 Debentures," will be received at the office
 of the undersigned until 4 p. m. on Monday
 the 5th day of August, 1901, for the pur-
 chase in whole or in part, of debentures of
 the Corporation of the City of Victoria, B. C.,
 amounting to \$255,000, payable in 50
 years from the 1st day of August, 1901, and
 also debentures as aforesaid for the sum of
 \$125,000, payable in 10 years from 1st day
 of August, 1901, and all bearing interest
 from that date at the rate of 4 per cent per
 annum, to be paid by the City Treasurer.
 The tenders must state the price net at
 Victoria which they will pay.
 In addition to the net price the purchaser
 will have to pay the Corporation interest
 at the rate of 4 per cent from the 1st of
 August, 1901, to whatever date the money
 is received by the City Treasurer.
 The moneys obtained from the sale of
 these debentures will be used exclusively for
 the acquisition of valuable real property
 and in works of a permanent character
 in the city.
 The Corporation does not bind itself to
 accept any tender.

Defective Machinery

The Dominion Alien Labor Act Declared to be a Dead Letter.

Delegate From The Revelstoke Trackmen's Union Interviews Attorney General.

P. J. Graham, secretary of the Revelstoke Trackmen's union, called upon Attorney-General Eberts yesterday to ask the aid of the provincial government to enforce the Alien Labor act. Mr. Eberts informed Mr. Graham that he was powerless in the matter, that under the act in force initiatory proceedings must be taken by some private individual, who must first have obtained the written consent of a judge of the court in which the action is intended to be brought. This action must be brought against the person or persons importing the alien laborers in the same manner as a suit for an ordinary debt. The party may be sued for and the case tried summarily before any judge of a county court, who is a justice of the peace, or any judge of the sessions of the peace, recorder, police magistrate, or stipendiary magistrate, but in that case the written consent of the attorney-general or a judge of the superior or county court must first be obtained.

If the plaintiff wins his case, the defendant may be fined any amount not exceeding \$1,000, and not less than \$50, which sum shall be paid to the minister of finance or receiver-general of Canada.

The attorney-general had no objection to giving his consent to an action being begun, and regretted that his power in the matter was limited to that meagre extent. Mr. Graham was not prepared, nor did he think the union would care to begin an action against the C. P. R. which would very likely involve heavy expense and could not result in any benefit in any event. The Trackmen's union is not looking for chances to inflict fines on the C. P. R., what it desires is to keep alien laborers out of the country or to have them deported after their illegal importation. The act provides that the attorney-general of Canada, in cases where he is satisfied that an immigrant has been landed in Canada contrary to the provisions of the act, may cause such immigrant, within a period of one year, to be taken into custody and returned to the country whence he came at the expense of the person or persons who violated the law.

"But how to satisfy the attorney-general of Canada is the question," said Mr. Graham. "The act does not appear to provide for that in any way. In fact, as the Alien Labor act stands to day it is a dead letter, not worth the paper it is written on. The labor men of Canada asked for bread and the government has given them a stone."

Mr. Graham expressed himself as very well pleased with his interview with Mr. Eberts, who had carefully explained the position of the local government in the premises. The whole matter is one entirely within the jurisdiction of the Dominion, and with which no provincial government can interfere.

Continuing, Mr. Graham said that as the much vaunted Alien Labor act offers no relief to the strikers, they are left to their own efforts to combat the wholesale importations of foreigners. So far they have succeeded in persuading the men imported to refuse to go to work, and they will continue to do so, determined to act strictly within the law. This policy on their part is costing them considerable money as the Revelstoke alone they are paying the living expenses of 32 men brought all the way from Boston by an Italian employment agent. These men were promised return transportation if the work did not suit them, or that the real state of affairs were misrepresented. When they arrived and found the strike on, they refused to work and demanded to be taken back east, but the request was refused and they are now being supported by the union.

Mr. Graham says the company is offering as high as \$1 an hour and cannot get men to work. The state of the road bed and bridges is becoming every day worse and the running of trains more difficult. The company has one gang of Japanese working under duress, being forced to it by armed special constables. The Japs, he says, are loyal to the union and walked out with the white men, but this particular lot are practically prisoners, driven to work by threats of personal violence.

Local labor men who are taking an interest in the strike, expressed their dissatisfaction with the Alien Labor Act, which they say, is of no use whatever as a preventative of foreign labor being imported, and worthless, as it provides no machinery for their deportation. What they asked for and what they understood parliament was granting them, was a law which would provide a summary method of arresting and deporting foreign laborers—a law similar to that in force in the United States at present.

The Trades and Labor Council will meet tonight and it is expected that the act will be submitted to some severe criticism.

About half of all newspaper and magazine space is devoted to advertising, consequently advertising is largely responsible for the enormous amount of paper consumed. The Kansas City Star says the United States uses annually more than \$100,000,000 worth of paper.

Arrival Of The Empress

C. P. R. Liner Has Several Notable People Among Her Passengers.

Plague at Hongkong Prevents the Bringing of Chinese in Stowage.

R. M. S. Empress of India arrived at William Head at noon yesterday from the Orient, bringing 130 saloon passengers, 14 intermediate, and but two Chinese passengers, the liners having stopped carrying Chinese passengers from Hongkong because of the virulence of the outbreak of plague there, which has caused the death of a number of Europeans as well as a large number of Orientals. During the forty-eight hours before the Empress sailed, 59 fresh cases of plague were reported there, two of which were Europeans. The figures for the week ending June 17 were 151 cases and 151 deaths, compared with 161 cases and 155 deaths during the previous week. Not since 1892 have so small a number of Chinese arrived on the Empress.

There were the usual number of notable in the saloon list. Included were Major-General Barrow, C. B., of the British diplomatic service in China, who as will be remembered, was one of the leading factors in the Russo-British dispute at the siding near Tien Tsin, in which at one time threatened to cause trouble between the Lion and the Bear; Mr. Bryon Brennon, C. M. G., British consul at Shanghai; Gen. von Ketteler, who commanded one of the German columns in China, and Lt.-Col. McDonnell, R. E. C. B., another leading factor in the Tien Tsin siding affair, were among the leading service men. Other passengers were: Sam Hill, a son-in-law of J. J. Hill, and one of the directors of the Great Northern; G. J. and Mrs. Melhuish, of Bordenell & Co.'s Kobe office.

Other arrivals on the Empress were: Second Officer John Murphy and five men of the Nova Scotia bark Celeste Burrill, which was stranded while on a voyage from Manila to this port. She sailed from Manila on the 11th inst. and on May 20, bound to the Royal Roads, for orders, and when off the northwest of the Island of Formosa encountered a heavy gale, which raged for three days, partially dismasting the bark. When the storm blew itself out it was seen that so much damage had been done that the vessel could not proceed to Victoria, and Capt. Telley headed for Hongkong, at which port he arrived on May 31, and a short time afterwards the vessel was condemned. Part of the crew then took passage on the Empress.

The Empress had a light cargo, having about 2,600 tons in all, of tea, rice, cigars, opium and the usual shipments of Chinese and Japanese merchandise. She brought 700 bales of silk. After a short stay at William Head, she left for Vancouver at 3 p.m. The steamer Otter acted as tender to her.

MADRID NOTES.

The British Columbia refinery has chartered the new Clyde-built steamer Crusader, to bring a cargo of 5,000 tons of raw sugar from Java. The Crusader was launched in January of this year, and is now making her initial trip to Yokohama, from which place she will proceed to Java. She is expected to load the latter part of this month, and will probably be here in about 40 days.

Steamer Ramona, after having a new boiler placed in her by the Victoria machinery depot, has resumed service on the Fraser.

Steamship State of California, which has been on the Alaskan run for the Pacific Coast Steamship company during the past three months, has sailed for San Francisco. During the summer and fall she will ply between San Francisco and San Diego. Capt. Thomas will be in command of her.

Steam collier Telus passed yesterday morning.

AN ARTISTIC TRIUMPH.

Paloma and Karla Schramm Delight a Large Audience.

Child prodigies, as a rule, are seen to better advantage on the lithographs than in the merciless glare of the footlights, and in a majority of cases their years appear more to their audience than the excellence of their performance. But every rule has its exceptions, and these apply with force to little Paloma Schramm and her tiny sister, Karla. Paloma is far above the class of mere precocity which has lent evanescent fame to so many child pianists. She is a born artist—one might say genius—permeated through every fibre of her being, with the divine gift of music, and has imparted no mean share of her talent to her sister and pupil, Karla.

The lecture room of the First Presbyterian church was filled to its full capacity last night to listen to the wonderful performances of the Schramm sisters, and it would be hard to say which number of the programme was most enjoyed for all were listened to with breathless admiration and generous applause. Paloma's execution of the choicest morceaux was admirable; there is no suspicion of stiltiness or mechanical effort in her playing, every shade, and tone and accent is perfect, grace and ease marking her every movement.

The most remarkable feature of the evening was Paloma's improvisations from themes submitted by persons in the

Leather, like silk, is weighted to-day, for profit's sake.

"Weighted" means

having its pores filled with zinc, or other heavy mineral. This dangerous filling not only makes heavier shoes but causes sweaty feet, just as rubbers would.

The foot acids, thus developed, release the minerals in the leather, which are prone to react upon the nerves and blood supply of the foot.

Subject the rest of your body to this treatment and you would not live long.

Old fashioned calfskin was bark, or vegetable tanned, and if weighted at all was filled with heavy oils only.

Sometimes these oils were honest, and frequently they were of doubtful origin—almost as dangerous as minerals.

But the old fashioned calfskin, tanned soft and dry, without needless oil or mineral weighting, left the pores open, as in the living skin.

These pores carried off the perspiration of the foot, as they originally carried off the perspiration of the calf.

They put your foot in the same sanitary condition as your arm, permitting the moisture to percolate through the covering and to evaporate off its surface.

But old fashioned calfskin lacked finish—rebelled against polish.

Overcome this defect, and you have the ideal leather. The most famous tanner in Germany—Heyl—has overcome it, and so, has given to the world—

"NORMAL CALFSKIN."

This leather is porous as cloth, light as buckskin, smooth surfaced, and brilliant almost as patent leather. It makes the coolest, cleanest, most sanitary kind of shoe, carrying off moisture as created. In the windows you will see an ingenious and absolute proof of the great porosity of this new and wonderful leather.

No other leather volunteers such a proof because no other leather could with stand the test.

The Slater Shoe Makers control this new brand of leather exclusively for Canada, and it can be had only in the Goodyear Welted \$5.50 Slater Shoe. Stamped on the sole.

"The Slater Shoe"

audience. Departing from her usual custom the talented child rendered two of these, the second one played with a vigor, precision and finish that disarmed any latent suspicion that there might be collusion between her and the person who presented the first.

Karla shared the applause and admiration deservedly for her performance was almost equal to those of her clever sister.

It is to be hoped that these talented children will favor Victoria with another recital during their stay here.

Your son, said the teacher, has missed it on arithmetic.

Yes.

No good at spelling.

Yes.

A dunce in history.

Yes.

And there's no good in him.

Professor, said the farmer, have you ever heard that boy cussin' of a Georgia mule, under br'lo' sun, in a ten-acre field?—Atlanta Constitution.

A wise man will make more opportunities than he finds.—Bacon.

RESERVE.

Notice is hereby given that all the unappropriated Crown lands situated within the boundaries of the following areas are hereby reserved from pre-emption, sale, or other disposition, excepting under the provisions of the mining laws of the province, for two years from the date hereof, pursuant to the provisions of sub-section (5) of section 41 of the "Land Act," as amended by section 6 of the "Land Act Amendment Act, 1901," to enable the Pacific Coast Power Company, Limited, to select therefrom timber limits for wood pulp and paper manufacturing purposes, as provided by an agreement bearing date the 13th day of June, 1901, viz:

Area 1.—All the surveyed land on both sides of Kluge River, and the land surveyed between Kluge River and Bond Sound.

Area 2.—Commencing at the northeast corner of Lot 1; thence following up the river at the head of Thompson's Sound and its branches, a distance of ten miles, and having a width on each side thereof of one mile.

Area 3.—Commencing at the northern boundary of Lots 45, 55 and 56, on the Kluge-Klene River; thence north along the said river and its branches five miles, and having a width on each side of one-half mile, including all surveyed lands.

Area 4.—Commencing on Wakeman Sound at the southwest corner of Lot 61; thence west on the 51st parallel of latitude to a point north of Embury Lagoon; thence south to said lagoon; thence southwesterly following the passage between Kluge Island and Pandora Head to Mills Passage; thence to Queen Charlotte Sound; thence southeasterly along the shore line of Noel Channel, and easterly along the centre of Fife Sound to Village Point; thence north westerly to the north of Trivet Island to the mouth of Kluge River; thence north along the west shore of Wakeman Sound to the point of commencement.

Area 5.—Consisting of Harbledown and Turner Islands.

Will Travel By Empress

Big White Liner Placed at the Disposal of Governor General.

To Convey the Duke of Cornwall and York and Party to Victoria.

The Canadian Pacific Railway com-
pany has placed the steamship Empress
of India, which will be in port at the
time, at the disposal of the Governor-
General for the purpose of conveying
Their Royal Highnesses, the Duke and
Duchess of Cornwall and York and party
from Vancouver to Victoria and return.
This news came in a telegram received
yesterday by Sir Henri Joly, Lieutenant-
Governor. The offer is likely to be ac-
cepted, as the Governor-General has ex-
pressed his approval of it. The telegram
received by the Lieutenant-Governor and
his answer follows:

Ottawa, Ont., July 16, 1901.

The Lieutenant-Governor of British Co-
lumbia, Victoria:
Canadian Pacific Railway company
have kindly placed their steamship Em-
press of India at Governor-General's dis-
posal for purpose of conveying Their
Royal Highnesses, the Duke and Duch-
ess of Cornwall and York, Their Excel-
lencies, their suites and staffs from Van-
couver to Victoria and back again. His
Excellency thinks this arrangement very
suitable.

MAJOR MAUDE,
Governor-General's Secretary, Ottawa.

July 16, 1901.
The Governor-General's Secretary, Ot-
tawa:
The Lieutenant-Governor has received your
telegram and desires that you will con-
vey to His Excellency His Honor's
satisfaction at the generous action of the
Canadian Pacific Railway company in
placing Empress of India at Governor-
General's disposal for conveyance of Your
Royal party from Vancouver to Victoria
and back.

R. B. POWELL,
Lieutenant-Governor's Secretary.

COAL NEAR GRAND FORKS.

Prospector Claims to Have Made Most
Important Discovery.

Grand Forks, July 16.—Joseph Wise-
man, a prospector, claims to have dis-
covered coal on the North Fork of Kettle
river, six miles from Grand Forks. He
returned here yesterday bringing with
him specimens weighing over twenty
pounds. At the Granby smelter they
were pronounced to be bituminous coal.
Wiseman states that he discovered three
parallel seams, averaging four feet wide.
He was out for several weeks ago by
George A. Fraser and R. B. Gilpin, for
whom he located 1,280 acres. Mr. Fraser
leaves tomorrow for the new coal
fields to make a more thorough examina-
tion.

FIREWORKS DISPLAY.

Letter from Messrs. Hitt Bros. to the
Reception Committee.

The following explanatory letter was
sent by Messrs. Hitt Bros. to the Duke
of Cornwall and York reception com-
tee:

Victoria, B. C., July 15, 1901.

His Worship the Mayor and Reception
Committee, Victoria, B. C.:
Gentlemen,—In addition to the detailed
programme and tender for \$750 which
we have already submitted to your hon-
orable committee, we beg to say that we
should be glad to have an opportunity
to submit prices and particulars for fire-
works for whatever sum your finance
committee might appropriate for this
purpose.

We have already signified our willing-
ness to hand you certified cheque for 25
per cent. of the figure decided upon, as
a guarantee of good faith, the amount to
be forfeited in case of non-completion of
work to your entire satisfaction.
We have on hand a large stock of first
class display goods, everyone of which
has been manufactured in Victoria by
white labor.

The portraits of Their Royal High-
nesses, included in tender submitted, we
guarantee to be true and correct. You
will also notice in the tender the "simu-
laneous firing of large quantities of ma-
terial, always so effective.

Last year we were fortunate enough to
obtain the thanks of your city in regard
to the show given on the occasion of
Lord Minto's visit, and we are now out
for business, and to retrieve a reputation
damaged at the outset.

We need hardly mention in the case of
bringing fireworks from the east, the
cost of freight and the expenses of a
pyrotechnic mechanic, not to speak of
every cent of the money voted being re-
turned to your citizens, if placed in our
hands.

Trusting to receive favorable consid-
eration at the hands of your honorable
committee,

HITT BROS.

SUNDAY EXCURSION.

City of Nanaimo to Make a Trip to
Bellingham Bay Ports.

A delightful outing is promised for next
Sunday, when Victorians will be treated
to an excursion to Bellingham Bay. The
popular steamer City of Nanaimo has
been chartered for the occasion, and will
sail from the C. P. N. company's wharf
at 9 a. m., calling at Whatecum and Fair-
haven, and returning will arrive at Vic-
toria at 9 p. m. This trip is one of the
most delightful picturesque to be found
in inland waters and offers an excellent
opportunity to view the fishing trawls
and also to inspect the largest canneries on
the Pacific Coast in full operation. The
City of Nanaimo will be abundantly
supplied with comfortable seats and
camp chairs, so that all who may desire
may enjoy the refreshing breezes and in-
vigorating sea air.

The Fifth Regiment band will accom-
pany the excursionists, and add to the
general enjoyment by supplying music in
their usual efficient manner. This is just
the weather for a trip on the water and
the fare being placed at \$1.00 for the
round trip, will no doubt attract a full
passenger list.

If you once try Carter's Little Liver Pills
for sick headache, biliousness or constipa-
tion, you will never be without them. They
are purely vegetable, small and easy to
take. Don't forget this.

"Mason & Risch" Piano IN WINDSOR CASTLE

The following from the well-known London, (Eng.) Illustrated Sketch, describing
the Emperor of Germany's visit to Windsor, will be read by Canadians with more than
ordinary interest.
"The beautiful suite of rooms prepared for the Emperor during his stay at Windsor
is known as the Tapestry suite, and exclusively preserved for the use of Royal Sov-
ereigns. In the sitting room stands the Prize Piano made by MASON & RISCH,
TORONTO, Canada, shown at the last Colonial and India Exhibition."
The above remarks from the Sketch recall to mind the great honor which has
been done to a Canadian firm, and Messrs. Mason & Risch must feel proud that one
of their pianos adorn apartments in Windsor Castle which are especially set apart
for the use of Royal Sovereigns.

Lacrosse Team
Hard at WorkGetting in Shape for the Match
Against the Cham-
pions.Intermediate Baseball Team Or-
ganized—Junior Match—Pre-
paring for Everett.

The Caledonia park was the scene of another hard lacrosse practice last evening, when the senior team went up against the intermediates. Although the young team were no match for the seniors, they gave the older hands a good game and a chance to work their combination which is rapidly developing into championship form. The local boys are all in the best of form and will be able to go at a two-minute clip from the sound of the whistle and the champions from the Fraser will have their work cut out to down the boys in blue and white. This will be the first time the Victorians have met their old rivals on the Caledonia grounds for the last two seasons, and they will do their best to turn the tables. There will be another hard practice this evening, when some of the old players will be on hand to help the boys out. The match on Saturday will take place at 3 p. m., and is quite likely that Frank Miller, of Vancouver, will referee the game.

CROQUET.
Second Day's Play of the Tournament at
Vancouver.

Vancouver, July 16.—(Special)—The following are the results of the second day's play in the croquet tournament. Mrs. (Dr.) Johnston and Miss Twizell beat Mrs. Holland and Miss Harvey, 11; Mrs. Hutchins and Mrs. Coleman beat Mrs. Barnard and Miss Loewen, 12; Miss Selwyn beat Mrs. Evans, 12; Mr. Neill beat Mr. Proctor, 17; Mrs. Hutchins and Mr. Averill beat Mr. Hutchins and Miss Twizell, 10; Mr. Hutchins beat Mr. Harvey, 13; Mr. Coleman beat Mr. Gravelly by default; Mr. McFarlane beat Mr. Holgate by default; Mr. Barnard and Miss Loewen beat Mrs. Benwell and Miss Selwyn, 13; Mr. Hutchins beat Mrs. Coleman, 15; Mr. Malton beat Mr. Barnard, 11; Messrs. Proctor and Neill beat Messrs. Evans and Colgate, 17; Mrs. Dana beat Mr. Twizell, 1; Mr. and Mrs. McFarlane beat Messrs. Harvey and Kirk, 13.

INTERMEDIATES ORGANIZE.
Young Ball Players Form a Club and
Are Looking for Games.

The local intermediate baseball enthusiasts have organized under the auspices of the Victoria Amateur Athletic Association, and will be known as the Maple Leagues, the old club name of the Victorians. The club includes some very promising material, and the members are eager to hear from the rest of their class in the province. They are also willing to give the local boys a little practice. All communications should be addressed to George Smith.

A friendly game of baseball was played
at Beacon Hill between the second Vic-
toria company, Boys' Brigade, and the
Maple Leagues, on Tuesday evening. The
former team won by a score of 34 to 25.BASEBALL.
Preparing for the Match With the
Everett Team.

The Victorians will no doubt have their hardest game of the season on Monday next when they meet the Everett team at Oak Bay. The Everett team is reputed to be the strongest amateur nine in the Pacific Northwest. They have up to date met and defeated all comers, both amateur and professional. The Vancouver nine met with two defeats at the hands of the Everetts. The Spokane professional league club was defeated by a score of 4 to 0. The Victorians are practicing hard for the forthcoming match, and if they do not win they will have the satisfaction at least of giving Everett a good hard rub. Of course the visitors will have their crack pitcher, Shock, in the box, but it is doubtful if he will succeed in doing much more with the Victorians than Holness will do with them. The local fans will be in a position to see just how good a battery the home team have by comparing the work of the home boys with that of the visitors. Shock has the reputation of being the speediest as well as the best pitcher, either amateur or professional in the north-west. He has had many offers from the professional teams throughout the country, but he has refused them all, as he wishes to retain his amateur standing, to enable him to take part in the college sports during the coming term. He is a student of the Washington University, and is scheduled for the University team until the close of the last term. Monday's game will not be called until four o'clock in order to give business people a chance to get out to see the game.

SPORTING NOTES.

The meeting of the J. B. A. recent committee will be held on Friday evening, this evening, as previously stated.

The annual regatta sports will take place at West Point on the 24th inst. Mr. W. S. Gore's yacht Dione is lying on Raymond's wharf, in order that some slight alterations may be made, which are expected to increase her speed.

GARDEN PARTY.

Ladies of St. James' Guild Secure Large Attendance at Their Attraction.

The garden party at Mrs. Vincent's residence yesterday afternoon and evening under the auspices of the ladies of St. James' church, attracted a large number of people. The grounds looked very pretty. Several huge Japanese umbrellas, blazing with brilliant colors, were scattered about, and under them tables were laden with tempting articles ready for sale. The ice cream stand was in charge of Miss F. Vincent; Miss W. Larin and Miss Leiser looked after the Butterfly Painting and Pie drawing; the flower stand, which was the prettiest of all, was presided over by Miss Russell; Miss V. Sweet and Miss M. Kane looked after the Fish Pond, and were kept busy a great many people trying their hand at angling; Miss Burns, Miss Cooley and Miss George, presided over the tea table,

Hoshi Toru at Tokio City
Hall.New Strike at
Mount SickerLarge Ledge of Gold Bearing
Quartz Located on the
Lenora.Progress of the Camp—Activity
on Every Side—Tide
Turned.

New strikes of valuable ore on the Lenora have been so common of late that they are accepted as a matter of course by the management, but the latest discovery at the mines opens such a vista of golden promise that it must cause a commotion in the circles of investors and speculators. The new strike is a ledge of gold-bearing quartz, located on the Lenora. It is a ledge of white quartz on which some work was done in the early days of the properties, but abandoned for the more promising looking prospects lower down the mountain. On the other day a visitor passing by this ledge with Mr. Croft, carelessly picked up a piece of rock and there, imbedded in it, were three tiny nuggets of free gold. Needless to say, Mr. Croft was delighted with this new evidence of the wealth of the Lenora. He is now busy with the men to work to investigate the ledge. It is 15 feet wide where exposed, and as it has not been crossed there is no means as yet of judging of its full extent. From its position, however, Mr. Croft says he will strike it by a cross-cut in No. 3 tunnel at 250 feet.

Work in No. 3 tunnel is progressing satisfactorily, a good body of copper ore having been encountered a few days ago. The mine is producing 70 tons a day of sorted ore, which is shipped to Tacoma, and 60 tons of second class, which is being added to the big ore dump.

The Hotel Mount Sicker is now in perfect condition, and as soon as the new locomotive (which is daily expected) arrives and the passenger car is put on the Mount Sicker railway, the camp should attract for work from Rossland, owing to the mine and the invigorating air of the mountain.

The buildings on the Copper Canyon are being pushed to completion and active mining will go on with a large force of men. The Mount Sicker & British Columbia company, owning it claims, are building a manager's residence and bank houses, and when these are completed they will put on a big gang of miners and develop some of the most promising of their claims.

Lloyd's sawmill, at Mount Sicker Junction is nearly completed, and will start some day this week.

Mr. Croft says miners were scarce a while ago, but now he has numerous applications for work from Rossland, owing to the strike there. From all indications the centre of active mining is rapidly changing from Kootenay to Vancouver Island, a fact which must add greatly to the prosperity of Victoria.

COMFORT FOR
POOR SLEEPERS.

The Mystery of Sleep—Insomnia a Warning of
Overwork or Approaching Nervous Collapse
Which is Not to be Lightly Disregarded.

Robbery of Sleep One of the Worst of Crimes—Dr. Chase's
Nerve Food By Building Up Blood and Nerves
Restores Restful Sleep.

"Sleep is the vacation of the soul; it is the mind going into the playground of dreams; it is the relaxation of muscles, and the solace of the nerves; it is the hush of activities; it is a calming of the pulse; it is a breathing much slower but much deeper; it is a temporary oblivion of all caring cares; it is a doctor recognized by all schools of medicine. Lack of sleep puts patients on the rack of torture or in the mad-house, or in the grave.

Insomnia is a disease of our country and of our age. Where there is one man or woman with strong, healthy nerves here are a dozen whose nervous systems are overwrought and unstrung. In vain their toss in beds of misery, longing for nature's great restorer, restful sleep.

In hours of temptation they resort to opiates and narcotics, which produce temporary unconsciousness at an enormous expense to the human system. In all occupations and professions there are times when a special draft is laid upon nervous energy. Mothers, too, deprived of sleep and worn out by caring for their children and watching them through periods of sickness and disease, are left physical wrecks. Especially in the springtime do we all seem to require an unusual allowance of sleep to overcome the weakening and debilitating effects of winter and the trying changes of temperature.

Sleeplessness is a warning that the nervous force of the body is being exhausted more rapidly than it is being created, and points to ultimate physical bankruptcy. The nights of some unusual effort must be made to overcome this state of affairs, or collapse is certain. Scientists have pointed out certain elements of nature as being peculiarly suited to the needs of an exhausted nervous system. Through the mediation of the blood and nervous system these restoratives carry new life and vital energy to every nerve cell in the human anatomy.

While these elements of nature are combined in various proportions, it is now generally conceded by physicians that the prescription used by Dr. Chase with such successful success in his immense practice is the one which gives most general satisfaction. This preparation is now known as Dr. Chase's Nerve Food, and has come to have an enormous sale in every part of this continent, where nervous disorders and sleeplessness are so prevalent.

Each and every sufferer from nervous and physical exhaustion, thin, watery and impure blood, and the demon insomnia, can begin the use of Dr. Chase's Nerve Food with positive assurance that the regular use of this famous food cure will gradually and thoroughly build up and reconstruct the nerve cells and bodily tissues, and permanently cure sleeplessness and irritability.

You must not confuse Dr. Chase's Nerve Food with sleep-producing drugs and opiates. It is different from any medicine you ever used, and instead of tearing down the tissues and deadening the nerves, it cures by filling every cell with new life, vigor, and vitality. As a spring tonic and invigorator it is marvellous in its action, leading into weak, worn, tired human bodies the strength and buoyancy of perfect health; 50 cents a box, 6 boxes for \$2.50, at all dealers, or sent post paid, on receipt of price, by Edmanston, Bates & Co., Toronto.

According to advices received by the Empress of India, which arrived yesterday, rumors of a rebellion headed by Tsung Fu Hsien are current among the Chinese. It is reported that Gen. Tsung intends to waylay the Chinese Emperor on his way to Peking and raise the flag of revolt under the pretence of driving away the corrupt officials that now surround the Emperor. While the rumors have not been confirmed, the allied troops are making inquiries about the matter.

A Shanghai despatch to the Japanese native paper Asahi states that the Chinese Emperor intends to leave Sianfu for Peking, as previously announced, and preparations are being made for the journey. Tsung Fu Hsien, who is in Kansu, petitioned their Majesties to proceed to Joyang, urging that considerations of safety rendered it inadvisable that the court should return to Peking while it remained in the hands of the "foreign devils." The real purpose of the general is to divert attention from himself as if the court returns to Peking his own punishment cannot be much longer delayed. The petition was promptly rejected.

Details were received by the Empress of the assassination of Hoshi Toru, the well known Japanese politician, at the city hall of Tokio. He was stabbed to death by a fence named Iba Sotaro. There appears to be no desire on the part of the assassin to hide the motive of his act. The murder-er is a man of influence and high aims and has apparently been a well-to-do citizen. From accounts published in Japanese papers, it seems that Mr. Hoshi had been attending a meeting of the adherents. The meeting was held in private and the discussion was concluded at about 3 o'clock. Mr. Hoshi, with the mayor and others, were having a social chat when the assassin entered the room. The man was well dressed. He wore his name and said he was a member of the educational committee of Yotsuya Ku. No one suspected that the man was bent on evil, and consequently little attention was paid to him. He walked behind Mr. Hoshi and drew a dagger, instantly plunging it into Mr. Hoshi's right side, penetrating the lung. The assassin, who is a skilled fencer, dealt the blow before Mr. Hoshi could offer any resistance. Mr. Hingra, clerk of the city assembly, was the first to see what had taken place, and he at once sprang on the assassin and held him. The others in the room then helped to secure the assassin, which they succeeded in doing after a struggle. The police authorities arriving on the scene shortly afterwards the assassin was taken into custody. The wounds sustained by Mr. Hoshi were so serious that he fell dead without uttering a word. The remains were sent to his house in Akasaka in a carriage after an informal inquest. The assassin was taken to the Metropolitan police bureau, which stands close to the city hall. The assassin told the police authorities in quite a composed manner that he had been watching for a chance to kill Mr. Hoshi, as he had re-

solved to sacrifice his property and his life for his wife and family in order to strike the man. He gave as a reason for his bloody deed that it was necessary to strike a blow in the interest of sound education. He was bleeding freely from the forehead when arrested.

The wounds sustained by Mr. Hoshi were five in all. All were deep and mortal. The assassin Iba is described as a man 51 years of age. He was originally a follower of the Tokukawa dynasty and was skilled in the art of fencing. He founded two schools after the reformation of the Meiji era and has taken an active part in education work among young people. In 1892 he and others promoted the Japan Savings Bank of Tokio, of which institution he was elected president.

arrangement was made satisfactory to all parties of the officials as well as to the banks, and the ease with which it can be managed should make it popular with people who bring gold to this city.

It has been arranged that R. J. Skinner, the government timber agent here, is to take the duties of gold commissioner. Gold left with Mr. Pellew Harvey for assay and sale to the government will be made into bricks and handed over to Mr. Skinner, who will in turn issue certificates that may be cashed for their face value by any bank in the city. The gold bricks will be kept in a big vault to be constructed in the court house specially for this purpose. It is expected that this plan will be very expeditious and have the effect of bringing a large trade to the provincial office.

The action of the provincial government in providing for the assaying and purchase of gold has been forced upon them by the fact that the assay office proposed to be established at Vancouver by the Dominion government cannot possibly be equipped and put in operation in time to deal with this season's output of Yukon or Athabasca gold.

VANCOUVER SATISFIED.

Hon. Richard McBride Completes Arrangements for Purchasing Assay Office.

Referring to Hon. Richard McBride's recent visit to Vancouver, to arrange for the purchase of gold at full mint value by the banks of that city, the Province says:

"Hon. Richard McBride, minister of mines, was in the city today, one of the objects of his visit being the arranging of the detail of working of the provincial government assay office in charge of Mr. W. Pellew Harvey in the city. The whole matter was gone into fully and an-

DAILY MARKET QUOTATIONS.

(By B. Williams & Co., Stock Brokers.)
New York, July 16.—The following quotations ruled on the Stock Exchange today:

A Delightful Summer Trip

C. P. N. Co. Will Take a Party Round Vancouver Island on Hating.

An Inexpensive and Enjoyable Excursion—Send in Your Name.

At the recent annual meeting of the British Columbia Board of Trade a letter was read from Capt. Tramp, manager of the C. P. N. Co., which created much interest. It intimated to the board that the company would be willing to place the new steamship Hating at the disposal of a party to circumnavigate Vancouver Island. The offer was made subject to at least 100 persons making the trip at \$40 each, that amount to include meals and berths. As the voyage will occupy 7 or 8 days, the proposed fare is very reasonable, the accommodation being first class in every particular.

Since the meeting Mr. Elworthy, secretary of the board of trade, has received several applications for tickets and he desires that all who wish to avail themselves of this exceptional chance to enjoy a holiday and make themselves acquainted with the magnificent natural beauties of the Island, should lose no time in sending in their names, as it is imperative that the party should be made up without delay, to enable the C. P. N. Co. to make necessary arrangements.

It is proposed to start about August 1. The itinerary of the trip will be made to meet the wishes of a majority of the party—who will decide what ports will be visited, stay at each, etc. Every precaution will be taken to secure the comfort of the excursionists, and in case of rough weather, rare at this season, the steamer will avoid open water which might mar the pleasure of the trip.

Local News

One Year in Jail.—William Wilson and T. P. Hodson, accused of smuggling from Victoria to Seattle, were convicted and each was sentenced to one year's imprisonment and fined \$1,000. They have appealed from the decision of Judge Hanford under which they were convicted.

Was from Duncan.—H. E. Hall, who was killed by the locomotive of the Hazelton's capstan on the Skeena, was a resident of Duncan. Herbert Hall, of the Hudson's Bay Company, who is in that country, is well. Some have confounded him with the unfortunate man who was drowned.

Trades and Labor.—The regular semi-monthly meeting of the Victoria Trades and Labor council will be held this evening. The reports of the various committees on Labor Day celebration will be received. It is expected that resolutions bearing on the fishermen's and truckmen's strike will be submitted and discussed.

Death of a Hand.—There will be sad news for Capt. Gosse, of the schooner Otto, when that vessel gets her next mail, for yesterday Mrs. Dorah Gosse, wife of Capt. Gosse, died at St. Joseph's hospital, in her 41st year. Her husband, her mother, two sisters, two brothers and a sister-in-law, Mrs. R. E. Gosse, of Vancouver, survive her. The funeral has been arranged for Thursday afternoon, from the late residence, 37 South Turner street.

Enjoyable and Instructive.—Parsen Smith and Prof. Miller gave a very interesting entertainment at Centennial school room last night. Mr. Smith is a good speaker and gave an eloquent and instructive address on temperance. He showed the temperance sentiment in the various provinces and proved his position by statistics. Prof. Miller is a talented musician. He played several serious and both gentlemen sang. After the lecture and concert several moving pictures of the Boer war were shown. The entertainment was under the auspices of the W. C. T. U. There will be another lecture and concert this evening.

Installed Officers.—D. D. Grand Patriarch James Bell, together with other grand officers, installed the following officers of Vancouver Encampment, No. 1, I. O. O. F., last night: C. P. B. Deacon, H. P. P. Davey, S. W. Jos. Phillips, George A. Graham, treasurer, A. J. Sherret, O. S. W. H. Huxtable, E. S. D. Grant, guide, P. W. Dempster, 1st W. I. E. Phillips, 2nd W. A. Henderson, 3rd W. I. E. Sabine, 4th W. A. P. McConnell, 1st G. T. R. Drake, 2nd G. T. R. John Bell, finance committee, F. Davey, James Bell, A. Henderson, trustees, J. E. Phillips, P. W. Dempster, A. Henderson. A vote of thanks was given to the retiring officers, and after routine business was disposed of, a social time was spent.

PERSONALS.

J. Davidson and wife of Sacramento, formerly of this city, are here spending a summer vacation. They are guests at the Dominion Hotel.

John W. Colburn of the E. & N. railway, has returned from a pleasure trip to the East.

V. A. Smith, Seattle, is staying at the Dominion Hotel.

Dr. A. L. O. Gon, Seattle, is a guest at the Dominion Hotel.

H. J. Prevost, Seattle, is registered at the Dominion Hotel.

W. M. McCollister and wife, San Francisco, are staying at the Dominion Hotel.

O. Howard, Seattle, is at the Dominion Hotel.

Mr. and Mrs. C. W. Australia, are registered at the Dominion Hotel.

J. Pearson, Columbus, is at the Victoria Hotel.

Mrs. P. Lancaster, Miss F. M. Browne, and Mrs. Brown, are registered at the Victoria Hotel.

A. H. Coswell and wife, Seattle, are at the Victoria Hotel.

W. W. Gower, Seattle, is staying at the Victoria Hotel.

Mrs. Williams and Mrs. Williams, Seattle, are staying at the Dominion Hotel.

Eruptions In Java

Volcanic Outbursts Cause Loss of Life and Destruction of Plantations.

Natives Believed That End of World Had Come During Lava Showers.

News was brought by the Empress of India of a volcanic eruption on June 23, at Sourabaya, Java island. It was discovered that Mount Merapi, which lies some 60 miles to the southwest of the port was in active eruption. The report of the eruption was fearful. There are over 200 coffee plantations and 10 sugar plantations in the district. A large number of natives were engaged on these plantations. So far as is known 10 whites and 100 natives were killed. All the surrounding country within a radius of 10 miles of the mountain is covered with ashes and scoriae. The damage to the sugar crop is roughly estimated to exceed 1,200,000 pounds.

A correspondent of the Singapore Free Press writing from Tawang Koolje, Batak, Java, prior to that date, sends an account of an eruption of Kioeth Mountain, fifteen miles away from the above named place. He was awakened by a rumbling noise, and ran out to enquire as to the cause. He says:

"While sleeping, the headman of the village, stones began to fall around us, several of which struck me on the shoulder. We then went indoors and should a panic occurred among the natives, who came running to my house and that of the superintendent to inquire what was the matter, and not knowing, we were unable to calm them. At 4:15 a heavy shower of stones began to fall, which lasted until 5 o'clock. The sky became intensely dark, so that one could scarcely see a foot ahead, and to add to the confusion, the water, and sand, and ashes commenced to fall. The natives grew pale with fright, their children screaming and crying, and many feared that the end of the world had come. It was not until long after 7 a. m. that day dawned, and then the sky was at first only partially bright, and the natives were still so terror-stricken, that it was with the greatest difficulty we persuaded them to go to their quarters. We have since heard that the neighboring estates fared even worse than we did, and that there all the coolies left the plantations."

"During the course of the day we also heard that two estates, nearer than we were to Kioeth, were almost burned up, the burning lava having set on fire the neighboring forests, which, in turn, had spread to the plantations. An assistant on one of the estates endeavored to find his way to the house of the superintendent in the intense darkness, but was caught by the flames and so badly burned that when he reached his destination he fell in a swoon, from which he never recovered. The story of a superintendent and his wife and family. They started out with a native woman and a housekeeper in a wagon to get to town as the lava came pouring down from the hill, nearly threatening their house with destruction. Their course lay through a stream with deep waters. In the darkness, they missed the ford and were swept away by the current. The superintendent and his wife were caught in a most providential manner by the thick foliage of a bamboo tree which overhung the water, and the children, two little girls of eight and ten years of age, their nurse and horse and the housekeeper were drowned, their bodies being discovered later, about eight miles away from the scene of the disaster. In all the districts around the mountain in estates, the houses were damaged by fire and water, in some places the ground being left quite barren and covered inches thick with a sand and ash deposit.

"We are now in constant fear that there will be a repetition of the volcanic disturbances, and we are the more disturbed lest Kioeth should set in activity the neighboring hills, and thus cause a dreadful disaster. I hear from neighboring planters that when the last eruption of Kioeth occurred, in 1875, it was so terrible that half of the population was washed away, and thousands of lives were lost."

Will be found an excellent remedy for sick headache, Carter's Little Liver Pills. Thousands of letters from people who used them prove this fact. Try them.

COURT ADJOURNED.

Business Before the Supreme Court Concluded—County Court Tomorrow.

In the Supreme Court yesterday, Mr. Justice Irving gave judgment for the defendant without costs in *Saunders vs. Russell*. This is a case in which defendant brought an action to avoid payment of a mortgage executed by him. The learned judge in giving judgment said defendant was within the law, but his conduct was reprehensible. Bodwell and Duff for plaintiff, Robertson for defendant.

In Ontario Bank vs. Macaulay et al., judgment was signed by consent.

This concluded the list, and court adjourned sine die.

COUNTY COURT.

The following cases are set down for hearing in the County court, which will sit tomorrow:

McKeon vs. Carthew et al.
Ford vs. McKinnon.
Shiers vs. Moore.
Kwong Hing vs. Shaw.
Jackson vs. Berkeley.
O. T. Daily & Co. vs. B. C. Market Co., Ltd.
Matthewson vs. West & West.
Ming vs. Hind.
The following cases of garnishee are also included in the list:
West vs. Jensen and Gornat & Wallace.
E. G. Prior & Co. vs. Corley and C. B. C.
Peck & Co. vs. Ferguson and B. C. E. R. Co., Ltd.
There are also several judgment summons cases which will be heard at this sitting, including some left over from the last sitting.

THE SUFFERINGS OF JOB.

If the agonies of Job were any worse than the tortures of itching piles from which so many people are now suffering he had much to endure. The difference is that there is no reason for any one to endure the miseries of piles for a single day. Dr. Chase's Ointment has cured tens of thousands of cases, and is absolutely guaranteed to cure each and every case of piles. (50 cents in all dealers or by mail from Edmanssen, Bates & Co., Toronto.

The Farmer's Deadly Foes

Importance of Destroying All Fruit Showing Symptoms of Disease.

Cut Worm Plague and How It Is Being Successfully Combated.

Thomas Cunningham, member of the provincial horticulture, who is visiting various parts of the province for the purpose of investigating the ravages of insects and advising the farmers as to the most effective methods of destroying them, has forwarded to the department of agriculture a couple of plums and plums of this year's growth partially destroyed. The atrophied fruit is that attacked and destroyed by insects last year and carelessly allowed to remain on the trees all winter, with the result that it is spreading infection to the new fruit as fast as it is formed. Each of these shrivelled plums forms a disease centre which is sending out its colonies of germs to the young fruit, which in its turn becomes a propagation ground for myriads of destructive parasites, and so the infection to the whole tree. Fruit growers should be very careful in the fall to remove and burn every one of these disease laden fruits.

On the subject of the cut worm, Mr. Cunningham writes the following interesting letter:

Dear Mr. Vancouver, July 15, 1901.
Sea Island on Saturday and called on the president of the Richmond Farmers' Institute for more definite information re the unexpected attack of the cut worm, peridormus suavis. Unfortunately Capt. Stewart was not at home, but Mrs. Stewart informed us whose name was reported to be infected. I was accompanied by Mr. Phillip, secretary of the Richmond Institute, and we visited first the farm of Mr. Thomas Jang and found that he had lost about half an acre of mangolds of the pest. He immediately put out the poisoned bran, 2 pound Paris green to 50 pound bran. This had the desired effect, and prevented any further damage. I found the dead worms in great numbers. Mr. Lang reports having traced the pest to his mangolds, and the fact of his mangolds having been put in hand which had long been in sod had something to do with the development of the pest, the moths having laid their eggs in the grass the previous season. Mr. Lang's field is contiguous to Mr. Duff's infected field, and it is quite likely that both were infected from the same source. We next visited Mr. Williamson's farm, and found that he had lost about half an acre of mangolds, but took timely measures to destroy the caterpillars. He agreed to resume operations this morning, as advised, as he is determined to destroy every caterpillar on his place, and will spare neither time nor money to effect this object.

Mr. John Mackie's farm, a noble one, was next visited, and here I found that two acres of mangolds had been practically destroyed before Mr. Mackie was aware of the presence of the pest. He is a very busy man, has a fine herd of cattle, and is so fully occupied with his dairy work that the cut worms had stolen a march on him. However, he got even with them in fine shape by the use of the poisoned bran, 2 pounds paris green to 50 pounds bran. He made only one mistake, which he has agreed to repair today—he omitted to poison clumps of weeds, notably lamb's-ear and some bunches of volunteer grain, which are scattered more or less through his mangolds and turnips. I took him out through his field and showed him in many instances that there were numerous colonies of thriving caterpillars in the ground at the roots of these clumps. We found 20 good fat healthy fellows at one clump of weeds. Mr. Mackie is undoubtedly at work in exterminating them this morning. He is a thoroughly earnest and progressive farmer. I may add that he traces the infestation in his case directly to the manure heap. I cannot quote the man's words, but he states distinctly that he saw myriads of the small green worms when he was putting it out, but did not then know them as such, he is most positive on this point, indeed all those people are in practical agreement that the manure heaps have been the breeding ground for considerable worms. Should this be correct, and I cannot dispute it in the face of such overwhelming testimony, we must turn our attention to the disinfection of the manure in future. I think this can be accomplished without much trouble or expense, but the most important point for consideration is how to destroy the caterpillars. I shall lose no time in pressing this on the attention of all concerned.

We visited Mr. Wells' next after Mr. Mackie, and were thankful to find that he had successfully sprayed his crop and subdued the pest. He also is a careful, intelligent farmer, and thoroughly in earnest in subduing the pest. We visited several other farms, but found little or no evidence of the presence of the pest. All are on the look out for them, however, and I believe are prepared to deal promptly with them.

I am just leaving for Lulu Island to prosecute the work, and shall go from there to Delta, where I am informed the cut worms are in evidence. I shall report to you just what I find. To sum up, I would say that on Sea Island only mangolds have been attacked so far this season. In every instance the people are unanimous that infestation can be traced to the manure heaps. The pest is now well under control, and the farmers are thoroughly alive to the necessity of immediate action, and are armed with plenty of ammunition in the shape of paris green. It is well to advise the addition of lime to paris green when spraying is resorted to. I do this invariably.

A MARVELOUS MEDICINE.
Having a direct and combined action on both the liver and kidneys, Dr. Chase's Kidney-Liver Pills will positively cure many complicated ailments which cannot be reached by any other medicine, and hence its extraordinary success and popularity. Bright's disease, deranged kidneys, and stomach troubles are promptly and thoroughly overcome by this great family medicine. One pill a dose, 25 cents a box.

COLUMBIA RIVER BRIDGE.
From Nelson Tribune.
James Finlay of the Dominion Bridge company of Montreal, has arrived in Nelson to look after the construction of the steel bridge over the Columbia at Robson. It will be a month or two before he will be able to make a start on the steelwork, but he will endeavor to let a contract at once for putting in the necessary false work, enabling him to let the work on a satisfactory contract he will undertake it himself.

If sick headache is misery, what are Carter's Little Liver Pills if they will not cure? People who have used them speak freely of their worth. They are small and easy to take.

Waltham Watch Co., Elgin Watch Co.,

Dueber Watch Co., Celebrated Watches

Will be sold by us until further notice at prices 10 per cent lower than departmental stores, either in Montreal or Toronto, and will duplicate any invoice of theirs at above reduction. WATCH JOBBING DEPARTMENT will be conducted strictly on Toronto prices. The best of material only used, and a full staff of first class workmen employed. All work guaranteed twelve months. STODARD JEWELLERY STORE, 63 Yates street.

distinction is R. J. Woods, S. M., manager Green, Hope, cannery, Dr. B. W. Large, J. P., in charge of the hospital at Waukegan; J. T. Williams, J. P., Dominion government fishery officer; Geo. Robinson, J. P., Kittimat; Geo. S. McTavish, J. P., manager British Columbia Cannery company, and at last B. McNeilson, J. P., Dominion government fisheries officer, Bella Coola, who also carries the title of provincial government revenue collector. A constable, jail, and nearly a dozen justices of the peace should be sufficient warning to people in British Columbia to find other fields for operation than livers inlet.

RARE PLANTS.

From Kaslo Kootenai.

Miss Ethel Blackman, of this place, during her leisure hours, has given time to the study of botany, and has made quite a collection of plants and flowers which grow around Kaslo. In making her collection, Miss Blackman recently made the discovery of two rare species of Hemlock, which are not known to grow in Canada. The following are extracts from letters by Mr. James Fletcher, botanist at the Central Experimental Farm at Ottawa, received by Miss Blackman recently:

"I am returning you today one of your sheets of flowers which I held back to make a critical examination of the small purple flower to the right and left of the 'Gentian'. This I find, by Howell's Flora of N. W. America, is Hemlock Viola, which is not previously been found in Canada by any of our collectors. The localities given by Howell are: 'Along the Columbia river, Vinca, Oregon, and on the opposite side of the river near the mouth of the White Salmon river on moss covered rocks.' There is no Canadian specimen in the museum here of the geological survey nor in our Farm Museum. So you see even in your small collection so far sent you have already added an important fact to our knowledge of the science of botany in Canada. In the other letter, which is two months later than the first and dated June 25th, he says: 'You are certainly most fortunate in finding rare plants. Among the new ones you have sent for name you have added the other species of Hemlock, which is a most remarkable coincidence. Neither of these have previously been recorded from Canada, and that you should have been the one to find them both in the same year and at the same place, seems to me very remarkable indeed.'

RIVERS INLET.

Good Seasons Run of Fish Expected—General News Notes.

Rivers Inlet, July 13.—(Special).—The canneries have all commenced operation, although the run of sockeyes has been light so far. The weather for some time back has been cold, with a great deal of rain, which makes the water in the river clear and consequently the salmon will not gill. With warm weather the snow will melt in the mountains and muddy water will be at times a telling effect on the salmon catch at this place. It is reported, owing to an agreement between the several canneries, that there are about two hundred boats less fishing this season than in former years. This agreement is the result of the plan that has been in vogue for two seasons, and is said to have worked very satisfactorily. The expectations are that this season should be a good one, as the last three years have been very poor, and it is to be hoped that these ideas of canneries as well as fishermen will be realized.

There are very few cases of sickness so far. The canneries managers are keeping close watch at their places in case should the Skeena river, smallpox should take the liberty of visiting here. However, the sanitary condition is good at all the canneries. Dr. R. W. Large is keeping his weather eye on all newcomers, and puts them through his vaccination mill whether they want to or not. The D. G. S. Quadra, Capt. J. F. Walbran, called in here last week on her way from the Skeena, carrying the local officers on fisheries matters.

The Misses Chambers came up from Victoria on the last Louise, or a visit with their parents, Mr. and Mrs. R. Chambers, at the Waukegan cannery. The principal government has seen fit this year to station a provincial constable here, and it certainly leaves a good impression on the community, a jail has also been completed with two cells and a court room. The constable, Mr. S. Fraser, has done a great deal of hard work supervising the building of it, and if a person ever gets in, there is no possible chance for escape from this institution. There was a time that evil-doers could not be brought to a speedy trial for reasons that justices were few and far between, not so now. First of

DARDANELLES—There are others, but none that have given such universal satisfaction as this brand of pure Egyptian Cigarettes. For sale everywhere; 15 cts. per package.
